

Graphic display CZ0208708002714

The display is a 5-inch high-definition graphic TFT capacitive touch calibrated for use under a 4mm glass or plexiglass protection, offering an infinity of data, pages, control parameters, command and programming of the equipment. The graphics are open to a wide variety of design fantasies with video, communications and/or dynamic commands. Complete with drip protection and wet glass and communicates via direct connection with Cobofra display management boards.

Board technology	TFT touch
Number of keys	Infinite
