

Management board COB2204

The COB2204 board is designed for the management of electric motors for opening and closing skylights, industrial windows, and trapdoors in both directions of operation. Used for maximum 1100W asynchronous motors with cosfi 0.60, it has input fuse protection, direction management via the two relays and reverse protection.

Board technology	Relays
Output 1	Relay
Output 3	/
Micro contact 1	/
Thermal motor contact	No
Light signals	No
Serial 485	No
Remote control technology	No
Operating temperature	0° - +60°
Conformity	CE

Input voltage	230VAC 50-60Hz
Output 2	Relay
Output 4	/
Micro contact 2	/
Electromechanical push-button controls	Yes
Sensors	No
Connecting electronic controls	No
BT/Wi-Fi Technology	No
Product size	78x50 mm

Field of application:

Electric motors
