

## Electronic panel kit INV-EM-2

The INV-EM-2 model is an electronic panel kit in a plastic box for 230V three-phase motors. Equipped with V-on-F inverter technology, fitted with electromechanical push-button controls and potentiometer. The inverter parameters can be set via the INV-SET1 programming panel. The panel is expandable with sensors and wireless technologies.

Input voltage	230V
Max engine power	1.1kW, 2.2kW or 3.0kW
Input 0-10V	On request
Display	No
Multiple operation	Yes
Safety current max	Adjustable
Product size	241x129x314 mm

Output voltage	230V
12V auxiliary output	Yes, 12VDC
Controls	Push-button + potentiometer
Remote control	On request, 433 Mhz frequency
Wi-Fi expandable	Yes, on request
IP Protection	IP54
Conformity	CE

### Field of application:

Andra single-phase and three-phase solutions
