

Electronic board COB2407

On-Off electronic board maximum 0.55kW for managing equipment with single-phase 230VAC 1-direction of travel motor. It is complete with a protection interlock in the event of mains failure and a 12V printed circuit board. The board can be controlled by digital input, pushbuttons or electromechanical drives and has a 24VDC output to power a mains presence or operation light. It is equipped with micro switch and motor thermal consensus that can be excluded with a simple setting.

Board technology	On-Off relay
Output 1	For single-phase 230VAC motor - max 0.55kW
Output 3	/
Micro contact 1	Yes
Thermal motor contact	Yes
Light signals	Yes
Serial 485	No
Remote control technology	No
Operating temperature	+0° +50°
Conformity	CE

Input voltage	Single-phase 230VAC
Output 2	24VDC
Output 4	/
Micro contact 2	/
Electromechanical push-button controls	Yes
Sensors	Optional
Connecting electronic controls	No
BT/Wi-Fi Technology	No
Product size	114x38 mm

Field of application:

Slicers

Slicers household

Pasta die

Tomato passer
